Oberseminar Zahlentheorie und arithmetische Geometrie

Jasbir Chahal

(Brigham Young)

Some interplay between algebra, arithmetic and geometry

I will show how some problems in classical geometry become problems in arithmetic algebraic geometry which can then be solved using the known and conjectural facts about the arithmetic of elliptic curves.

Donnerstag, 09.06.2016, 12:00 – 13:00, a410

Alle Interessierten sind herzlich eingeladen.
