Representation Theory Afternoon Monday, February 10, 2014

14:15 – 14:45 Dr. David Pauksztello (University of Manchester)
"Torsion pairs in triangulated categories
generated by spherical objects", I

14:50 – 15:20 Dr. Raquel Coelho Simões (CELC, Lisbon)
"Torsion pairs in triangulated categories
generated by spherical objects", II

Coffee break

15:45 – 16:45 Prof. Dr. Jiping Zhang (Peking University)
"Character degree graphs of finite groups"

17:00 – 17:30 Dr. Hung P. Tong-Viet (University of Bielefeld)
"Brauer character degrees of finite groups"

Welfenschloss – main building of Leibniz Universität Hannover
Room a410

Everybody interested is welcome!

Prof. Dr. C. Bessenrodt

Institut für Algebra, Zahlentheorie
und Diskrete Mathematik
